FYI: We are in good shape for delivery tomorrow in order to support our people in the field. Maureen has confirmed with Jim (R9/CO) this is the route to go.

Yes, this is correct. Note: The information in the below email chain is preliminary research conducted by EPA and could very well need to be updated. Thanks for all your help today.
Mike

Subject: RE: Gold King Ownership Information

Mike,

Per today's telephone call, Toeroek will research and then confirm the current owners and their contact information for the property that will be affected by the installation of the proposed water pipeline. As EPA needs this information immediately, the work will be conducted under the Region 8 Emergency Response Task Order (TO-043). The results will be provided to EPA tomorrow. Please confirm that this is your understanding and please feel free to contact me with any additional comments concerning this request.

Thank you,

Lindsay Garner | Project Manager

Subject: Gold King Ownership Information

Hi Steve/Mike,

Here is the ownership information adjacent to the Gold King Mine. I was unsure of the radius of interest. I will work on the "red oval" illustrated in the word document that Steve sent to Mike, next.

Yellow claims are owned by Todd Hennis.

Blue – American Eagle MS, owned by Citizen Name/Ex. 6 We have a signed assess form from him for 2014 sampling work.

Red – Bastile MS, has several owners, none have been contacted.

Please let me know what question I should be trying to answer, AKA, how large of an area should I be looking at ownership for. I can identify all claims that intersect the North Fork of Cement Creek and Cement Creek. Also, please let me know how else I can help.

Thanks,

Liz
